

Gallantry to Spare.
(Continued from First Page.)
raising the doves as fast as they hatch out."

The chair next to him was thrown back and the slender, lanky form of John Sharp Williams rose to the emergency. He is accounted one of the most brilliant orators who ever sat in the Senate, but if he thought he was going to make a hit this time he was sadly mistaken.

"With all these charming ladies and so many of them southern ladies," he said, "I came not only to listen, I came also to look, and I have enjoyed doing both. I can assure you."

GALLANTRY.

This gallantry met with the recognition that it deserved at the hands of ladies on a world peace mission. They glared at him in silence and one of the most peachy peaches crossed to

"One time," said the Senator, "I met an old Confederate soldier and I asked him how it was that he was able to stand the perils of the Civil War. I said I could understand how he had endured starvation and privation and danger for the years of the war but after the disaster at Vicksburg I asked him how it was that he found courage to go on. He said to me: 'John, we was afraid to go home, so

"And don't you try to fool me," said Senator Williams, looking out over the audience of peace-seekers, "don't you try to tell me that if a war comes my wife or my daughters would want me to stay home. No, ma'am. If this country went to war for its existence I would have to fight or get a divorce."

"Ladies, I love peace, and I don't want to tread on any country in the world; but no country in the world must tread on us."

John Sharp Williams sat down for the first time in his life amid a hollow and sepulchral silence. The peace ladies sat with elevated noses. But suddenly from the rear of the house they were horrified to hear the sound of applause.

They turned to see a woman trail

torously clapping her gloved hands to beat the band. She was doing an applause solo in appreciation of these warlike remarks. It was the woman in the Union hat. I had suspected her from the first.

CHICAGO, N. D., MAY 1.

PARIS, Jan. 10, 11:25 p.m.—A general strike in the metal industry began today at Barcelona, Spain, without incident. According to the Madrid correspondent of the Havas Agency the Duke of Alba, when he took over the Ministry of Interior, received information that international agents were preparing a general strike involving all Spain to begin with the

new year, with the purpose of causing emigration of Spanish workmen to factories abroad.

IF YOU WORRY, READ THIS

Worry never brought any good to any-

body. Don't you say "I don't worry be-

cause I want to." Or, "I worry because I have

so much to worry about."

We all have our troubles and worry, of

course, makes matters worse. The doctor

generally recognizes this fact without be-

ing influenced in any way by it.

The doctor who could meet this nervous

condition and cure it would be the most

popular man in the world. But he can't

do it because the form of nervousness

known as neurasthenia, of which

worry is a characteristic symptom, must

be cured by the patient himself. That is

why you should write today for the book

"Diseases of the Nervous System" and

read the chapter on "Neurasthenia." So

many people have read it and written

back, "This hits my case exactly. I am

giving the treatment a trial and being

benefited." That the Dr. Williams' Medi-

STOP WIRELESS LEAKS
Government Takes Additional Measures to Insure Confidentiality of American Affairs by Order to Disconnect Radios While in Port.
[BY A. P. NIGHT WIRE.]
NEW YORK, Jan. 11.—Means for enforcing additional regulations laid down by Secretary of the Navy Daniels to protect the neutrality of the United States from violation by means of wireless installation on ships flying the flag of belligerent nations, were considered at a conference here today between Collector of the Port Dudley Field Malone and representatives of Rear-Admiral Nathaniel E. Usher and the chief radio inspector at this port.
Beginning today, all merchant vessels of countries now at war, upon entering ports of the United States, must lower the antennae of their radio apparatus to the deck and disconnect them from the radio station of the ship. This apparatus will be sealed by a government official and will remain closed while the vessel is within the limits of the port. Permission to hoist and connect the antennae and to break the seals must be obtained from the collector of the port.

W. D. Pearce,
General manager of the Cui Consolidated Mining Company, one of the Americans killed by the bandits in Mexico. Mr. Pearce resided at 1809 Buckingham Road.

DOES NOT BELIEVE HER HUSBAND DEAD.
Started by the report of her husband's death, Mrs. W. D. Pearce of No. 1809 Buckingham road steadily refused to believe last night that her husband had been a member of the party that went into Mexico and was killed by Villa bandits.
"My last letter from him," addressed from El Paso, said he had been advised that matters were quiet below the border, but that he did not intend to go south for some time," Mrs. Pearce said. "I do not believe he was a member of the party, just because others worked for his company the report must have spread that he was with them."
Mrs. Pearce has a little daughter, Sarah Francis Pearce. The husband was general manager of the Cui Consolidated Mining Company.

OBJECT TO EXPULSION BY THE ITALIANS.
[BY A. P. NIGHT WIRE.]
WASHINGTON, Jan. 11.—Recent expulsion from Italy of three persons claiming American citizenship has been officially called to the attention of the State Department, with appeals from two of them for representation seeking cancellation of the expulsion decrees. Pending investigation, the department will take no action.
The two who appealed to the department are Fairbanks Montagnier of Indiana and Howard Pfuehler, who gave Philadelphia as his home. The latter is said to be in Switzerland. The name of the third person expelled has not been learned by the department.
One of those expelled is said to have been suspected because of his repeated presence in the vicinity of various fortifications, and another because of apparent close relations with Austrians. Officials indicated tonight that there probably was nothing the United States could do in the cases, belligerent nations having virtually unlimited rights under international law to expel any foreigners they suspect of offensive activities.

CATTLE MAY ENTER SPAIN DUTY FREE.
[BY A. P. NIGHT WIRE.]
WASHINGTON, Jan. 11.—Dispatches to the State Department from Barcelona today said the Spanish government would, until further notice, permit the free importations of cattle, horses, mules, hogs, sheep and goats, and that export taxes ranging from about \$64 a head on cattle to \$15 on sheep had been imposed. Royal orders admitting into Spain duty-free many commodities, including grains and metals, were announced several days ago.

SEVENTY-EIGHT BOMBS DROPPED BY GERMANS.
[BY ATLANTIC CABLE AND A. P.]
LONDON, Jan. 11, 9:45 p.m.—A dispatch to Reuters' Telegram Company from Sofia, dated Monday, says: "A squadron of twelve German aeroplanes on Friday dropped seventy-eight bombs on Salonika, devoting special attention to the camps of the French and English, among which twenty hits were scored, causing an outbreak of fire. Two enemy planes were shot down. The German squadron returned without loss."

ROBBERS' GUN IS SPIKED BY FINGER.
AND SUSPECT TAKEN AFTER A SPIRITED CHASE.
[BY A. P. NIGHT WIRE.]
Man Set upon in Room by Two Bandits, Fought with Soap Dish and Bare Hand—Policeman in Auto Overhauled Fugitive on Street Car.
A thrilling battle with two bandits, followed by a chase with a fugitive on a street car and a patrolman in an automobile, resulted late last night in the capture of one of the supposed highwaymen and the wounding of the other. It is believed the police will have no difficulty in locating him today. Incidentally, in the capture Patrolman W. R. Simpson established a record of five alleged bandits arrested within the past month.
William Jahn, the victim of the highwaymen, had his first troubles when he returned to his room at No. 222 Winston street last night to find they had been burglarized during his absence, the thieves taking \$100 in cash he had hidden there. Mr. Jahn was sitting on the bed thinking it over when someone knocked at his door.
He opened it and was immediately set upon by two men. Using a blackjack and a revolver, the intruders were beating their victim unmercifully when Mr. Jahn managed to crack with a soap dish the man holding the revolver, cutting the man's face. The pain of this blow so infuriated the bandit that he leveled the gun as if to fire. Mr. Jahn thrust his hand between the hammer and the cartridge, rendering the gun useless, although the steel spring pin lacerated his fingers. Frightened by the time consumed in the struggle and knowing the sound would undoubtedly be heard, the bandits fled. As they passed into the street Patrolman Simpson came from the other side. The men separated and the officer followed the largest.
Running along to Fifth street, the bandit boarded a moving Washington street car. The patrolman commanded a passing automobile and gave chase, overtaking the car at Fifth and Olive streets, where Patrolman Simpson boarded the trolley car and took his prisoner.
Mr. Jahn identified the prisoner as one of the two who attacked him. The one who escaped is the man whose face had been cut by the soap dish.
The prisoner gave the name of Charles Vandenburg and denied he had been in the squabble. Blood stains on his hands made evident he had not passed last evening in peace and quiet, however.
THROWN DOWN MINE SHAFT.
Robbers Attack Globe Workman and Leave Him for Dead.
[BY A. P. NIGHT WIRE.]
GLOBE (Ariz.), Jan. 11.—Thrown down a forty-foot shaft of an abandoned mine near here Sunday night by robbers, L. Lepi, a miner, was rescued today by men working a nearby mining lease. The miner was suffering from bruises of the face and knees, declared he was nearly fainted, and that he was minus a \$50 gold piece taken by the robbers.
Lepi said that he was attacked by two men Sunday night. They took his gold, but overlooked \$2 in silver and then hurried him into the shaft of the abandoned mine near by. He called for help frequently yesterday and today. The men who rescued him said they heard a voice yesterday, but did not recognize it as a call for help.

WINTER GARMENTS GO.

Twenty Overcoats Stolen in a Day by Thieves Appreciative of the Chill Air—Many Small Articles are also Stolen by Culprits, Who Vandal.

was a brisk day yesterday for thieves and overcoats. Over thirty coats were taken out in search of and before night the involuntary suffer in ownership of twenty had reported to the police. They were taken from cafeterias, automobiles and stores, snatched on the street and taken out of rooms. The garments were carried from the middle, fur-lined linings to rain coats. They were all colors and all sizes. One thief took a thermos jug along with a rain coat, and another stuffed a pair of boots in the coat and disappeared.

Among those who lost their winter wear were W. E. Mansfield, 20 South St. Paul avenue; H. E. Tillman, No. 1243 East Fifty-first street;

Post, San Dimas; J. B. Bryant, 1055 North Lake avenue; Belmont Printing Company, No. 463 South Main street; C. E. Kopy, No. 431 N. Flower street; M. Schoenberger, Grand Hotel, Pasadena, and Peter Canale, No. 612 Castellar street.

"RAT" WAR LAUNCHED.

At the principals at Conference Plan details of Organized, Movement to Stamp Out Societies Prohibited by Law Six Years Ago.

The principals of the Los Angeles schools met Monday afternoon in the board room of the Board of Education and discussed upon plans for an organized attack upon school fraternities. Every principal pledged himself to aid in the fight, that is waged as the result of a resolution of Education Wood to abolish the secret orders.

At the H. H. School, principals of Los Angeles High School presented. It was decided to instruct all pupils in the schools made six years ago, abolishing fraternities. Then, a casual conversation was held, and it was decided that attendance will be made to ascertain just what students belong to fraternities. They will be instructed to resign from the fraternity or to stand, and, if they order, is not to stand, suspension or expulsion is to be made.

Nervous Prostration of Priest in Fatal Drugging Trip Here Leaves St. of Father. Death—Once a Favorite of Many Students at Local School.

Rev. Joseph P. McAnulla, C.M., formerly professor of philosophy in St. Vincent's College and since that time professor in the St. Vincent de Paul University at Chicago, died shortly after midnight yesterday at the St. Francis hospital.

He had been in ill health for several months, having suffered from nervous prostration, and only a week ago came to Los Angeles, accompanied by his brother, Rev. Francis McAnulla, C.M., in the hope of restoration to health. He had a relapse after arriving here and the aid was not unexpected.

He was a native of Illinois and 53 years of age. He began his studies for priesthood at an early age, and after finishing the novitiate at the Vincentian school at Ferrysville, Mo., went to Rome to continue his studies several years, and there received his degree of doctor of divinity and doctor of philosophy.

His service here in St. Vincent's hospital was during the summer of 1910. He was much beloved by the students and all who came to know him closely.

The body of the Cunningham and a Concor mortuary. The funeral arrangements have not been completed, and it is probable the interment will be here.

STREET IS DEATHED.

Locally Known Expires While Walking Westlake District—Was a Large Business Man of Canton, Who Passed the Western Here.

John Cummins, 44 years old, head of the Canton (O.) Transfer and Storage Company and one of the ablest men of that city, dropped dead yesterday afternoon, while walking on West Sixth street, near Bonnie Bonnie street. The body was sent to the Crematorium in Highland Park and an autopsy will be held there this morning.

Mr. Cummins was a native of Pennsylvania, but for many years had been connected with business affairs in California. He had spent several winters in Southern California several years and had a winter home at No. 1323 Second street, San Monica. Recently, however, he stopped at No. 353 South Bonnie Bonnie street.

When the widow, he leaves one who is in charge of the business in Canton. The body will be sent to

city for internment, going tomorrow on the Santa Fe.

Y.W.C.A. Worker Tells Graphically of What Association is Doing for Immigrant Girls.

Women who are Made Into Americans.

Now the Y.W.C.A. is helping the destiny of the coming generation looking after the immigrant girls young married women and especially those who come to the Association auditorium by Miss Barnwell, immigration secretary charges of the York Heights branch the association. Several hundred members of the association and others interested in solving the immigrant problem are gathered at Ellis Island and the Old Pier to see the new series displayed in motion pictures. Stereoscopes of the foreigners arriving

and social papers in their possession and the immigration officials separated were also shown. The pictures were shown at Boyle Heights branch of the nation, known as the International tube, where the immigrant women taught English and encouraged Americanization. The cartoonist Harrowell has been interested the work among the immigrant several years and is especially in securing members from that class. Following the lectures were served and this is a favored a social hour.

DEFENSE RESTS CASE.

The California Edison Company's testimony before the Railroad Commission's sub-committee on "Conservation of Energy" will be heard today.

The Southern California Edison company finished the presentation of its side of the condemnation case yesterday before the Railroad Commission. The testimony of the company and Secretary Ballard were cross-examined by

CITY ATTORNEY HUMROD.
Ballard was also examined at length by Paul Schmeisser, head of the Railroad Commission, the analysis of earnings and cost of the company in outside territory for the year ending in 1910, which was used by Mr. Ballard's computation of the total "just emation" to be paid by the city if it ever took the case to the end of Mr. Ballard's examination, the company rested its case and an adjournment until this morning was taken. The city's contention will place its own auditors Chief Engineer Sachs on the stand to testify on the findings of the commission. The examination has been making into the operations during the past year, as the intention of Commissioner to finish the examination there were no errors at which time an adjournment was taken until Monday morning until the city to study the transcript of the case. The city, according to Attorney Humrod, will be able to finish its case by the following Saturday.

BROKEN BONES IGNORED.
Hermes, the 10-year-old son of Frank Hermes, ordered for a lumber company at the end of the street, and he did not know him. She fell and hurt her arm while roller skating. The examination revealed the fact that she had been in the street. The arm was left crooked, and was broken and set

GIVE THEIR LIFE-BLOOD TO SAVE A DEAR FRIEND.

Effort to Restore Health to E. H. Groenendyke, Pasadena Banker, Calls Wealthy and Prominent Men to His Aid and Precious Fluid is Freely Yielded for Transfusion Operation—Patient Rallying Well.

A BOLD effort to restore to Mr. Edward H. Groenendyke, president of the Union Bank of Pasadena, and a wealthy man, who has been stricken with acute anemia for nearly half a dozen of his close friends have volunteered to submit to a transfusion operation and give of their blood to replenish his depleted veins.

It became known to his friends that the popular Pasadena banker and his immediate family were in need of the transfusion operation, and many of his friends, including the notable Pasadena banker and the Pasadena banker, who has been stricken with acute anemia for nearly half a dozen of his close friends have volunteered to submit to a transfusion operation and give of their blood to replenish his depleted veins.

Dr. Barlow is first. Dr. Barlow, eminent surgeon, is in charge of the operation and has been so deeply interested in his welfare, that when he heard that heroic measures were being taken to save his life, he volunteered to undergo the transfusion operation. He gave a pint of his blood to Mr. Groenendyke, the result being most successful.

Dr. Barlow is first. Dr. Barlow, eminent surgeon, is in charge of the operation and has been so deeply interested in his welfare, that when he heard that heroic measures were being taken to save his life, he volunteered to undergo the transfusion operation. He gave a pint of his blood to Mr. Groenendyke, the result being most successful.

Heroism.

known to medical science is being done to save him. "We have tried everything that might be helpful," Dr. Barlow said, "and there is strong hope for Mr. Groenendyke's ultimate recovery." Dr. Barlow, who assisted in the operations, also refused to discuss the case. The loss of a pint of blood is very weakening even to a strong and robust person, but none of the men who have volunteered their services to Mr. Groenendyke have given that phase of the ordeal a thought. Mr. Groenendyke is 38 years old and has a wife and a son, 6 years old. Until he was taken sick the family resided in a beautiful home on Oak Knoll. He is a member of the California Club and Midway Club and a devotee of outdoor sports. He has always taken keen interest in civic affairs in Pasadena, and is a man of the highest character and standing.

REWARDS OF SERVICE.

Many Handsome Gold Pins Given to Employees of Standard Oil in West, Who Have Worked for the Company Ten Years or More.

Valuable and handsome gold pins were distributed yesterday to thirty local employees of the Standard Oil Company in Southern California, who have been in the service ten or more years. The awards in this city were made by J. L. Quinn, district sales manager for Southern California, at his offices at Aurora and San Fernando streets, at a meeting attended by all the Los Angeles employees. According to the plans of the company, every employee on the honor roll, from Seattle to San Diego and Phoenix to Honolulu, was given an emblem, which was decorated with a star for each five years of service over ten and up to thirty years. For each five years over thirty, the employee received a diamond on the emblem. More than 500 pins were distributed and the highest honor yesterday was awarded to John E. Miller, superintendent of the company's factory at Richmond, who has been in the service more than forty years. He got a gold button set with four diamonds and a star.

Heroic Effort to Restore Banker's Health.

TESTIMONY COMES HIGH.

Hundred Dollars a Minute Will be Paid by Government for Evidence of Pennsylvania Man in American Brokerage Company Trial.

The high price of testimony in the case of the government against Alfred W. Allen and P. B. Woodruff, former officers of the American Brokerage Company, was indicated yesterday, when James G. McCutcheon, City Commissioner of Bradford, Pa., spent three minutes on the stand, and his bill for per diem and mileage will not be less than \$400.

Mr. McCutcheon bought 5000 shares of Wellington Mines Company, paying \$415 for it, but he said that all he ever got for his money were the letters of the company showing the receipt of his monthly checks. Woodruff tried to trade him Midway Provident Oil Company stock for the investment, but Mr. McCutcheon refused to accept. Woodruff had about 70,000 shares of that stock, according to the evidence.

The government closed its evidence yesterday, and the defense now has an inning. Mr. Woodruff read a number of letters from clients of the American Brokerage Company, in which they agreed to take Midway Provident Oil stock for their holdings.

Mr. Verengo never had any trouble in his sleep walking until he tried to take a bath in a "Russian" bath tub, which is merely half a barrel tacked into the bed of the river. He was lying there half drowned yesterday, when he was rescued by H. C. Seely and Benjamin Worcester.

Always he had walked in his sleep. Yesterday morning early he started on a somnambulistic excursion which ended in the river bed near First street, where the Russian colony has a bathtub. This tub is merely half of a barrel, submerged in the river bottom so it will collect sufficient water in which the Russians can tuck their bodies to achieve a complete submersion.

Mr. Verengo delved into this recess, and was found by Mr. Seely and Mr. Worcester when they were attracted by his cries for aid. He was taken to the Receiving Hospital and then returned to his home. Hereafter, he told the surgeons in the Receiving Hospital, he will barricade himself in his room at night.

BLOW ON HEAD KILLS. Newsboy Victim of Injury Received in Unknown Manner.

Fred A. Welch, a newsboy of No. 244 South Figueroa street, died yesterday of a blow on the head received in an unknown manner. Two comrades who took him to his room in an unconscious condition said he fell on the street and hurt his head. The skull was fractured. Welch's room-mate, John Laurence, was called to the door early yesterday morning by two acquaintances of Welch, who had the latter in their arms. They merely said he had fallen, hurting himself, and they wished to get him into bed. From that time Welch sank rapidly, his breathing becoming so labored Laurence feared for his life and summoned the Receiving Hospital ambulance. Welch died in the Receiving Hospital. The body was taken to the Button morgue. Coroner Hartwell has ordered Autopsy Surgeon Wagner to investigate the nature of the fatal injuries.

TEN SUFFER IN FILMDOM FIRE.

Director-General a Victim of Blaze in Inceville. Least Estimated Loss is Over a Hundred Thousand.

Dramatic Scenes at Gelatine "Cuttings" Explode.

Thomas H. Ince, director-general of the New York Motion Picture Company plant at Inceville, near Santa Monica, and nine other persons were seriously burned last night in a fire that gutted the administration building.

LIQUOR FLOOD FLOWS SOUTH.

Steamers Bring in Wet Goods and Saloon Men Evicted from the North. The Pacific is bearing a tide of liquor southward. Driven from Washington and Oregon by prohibition laws, a goodly portion of 1000 tons of "wet goods" is flowing into Los Angeles harbor in the holds of steamships. With the kegs and barrels are arriving many persons who were engaged in the industry stopped by the northern States' "dry" enactments.

The steamer Governor arrived here yesterday with several hundred tons of liquors, no longer marketable north of California. When she sailed from Seattle she had on board also more than 200 persons who had been engaged in the liquor industry. The steamer George W. Elder also came into port with a consignment of bottle and barreled goods, and a number of passengers who left Oregon because of the drouth. The prohibition laws will cut heavily the receipts of some steamship companies that have carried beer from the north and returned empty kegs.

TO SENTENCE SCHMIDT.

Convicted Dynamiter to Appear Before Judge Willis this Morning and Ask New Trial—Caption Case to be Set for Trial Next Month.

Matthew A. Schmidt, who was found guilty of first-degree murder in connection with the dynamiting of the original Times Building, will be taken before Judge Willis at 10 o'clock this morning for sentence. The jury fixed his penalty at life imprisonment. Attorneys for the defendant have announced that they will argue for a new trial upon the grounds that the jurors were permitted to attend theater performances contrary to orders of the court. David Caplan, Schmidt's alleged partner in crime, will also appear in court this morning when the date for the beginning of his trial will be set. Dist. Atty. Woolwine says he will insist upon an early date. He says, however, it will take a month to prepare for the prosecution and any date around the middle of February will be satisfactory.

LITTLE SLIP IS THEIR UNDOING.

Newhall Bandits Arrested for Wrong License Plate.

Try to Slib Caplor on Way to the Police Station.

Loot House and Store and Fight Their Way Out.

The Newhall bandits, three youthful desperadoes, who terrorized a town with bullets, earlier in the day, were arrested here yesterday by a single policeman who took them into custody for having a 1915 number plate on their automobile. On the way to the police station they tried to kill their captor, but later submitted meekly to cross-examination, and then made a full confession of their banditry. Their automobile was filled with loot and they were armed with five revolvers.

Their names, they say, are Henry Jackson, Ray Parvis, and Carl Richards, each 18 years old. They had the most exciting three hours of their lives earlier in the day in Newhall where they disrupted the town by their boldness, leaving in a bullet shower. During the afternoon, they first forced the door of the home of J. B. West in Newhall, taking a quantity of loot into their automobile, which they left near by. Then they hurried to a vacant house, but could find nothing of value. Next they went to the store of the Newhall Mercantile Company, where they removed a window, and stole a quantity of supplies and valuable merchandise. As they were leaving, the alarm of burglary was given, and Deputy Sheriff Harrell hurried to the store, where he opened fire on the bandits as they were leaving. They returned the fire, but neither was injured. The townspeople were greatly excited. Then they headed for Los Angeles. Only by chance were they captured. As Policeman Alder Arguello was returning home after a day of duty, he noticed the automobile with an old plate at Fourth street and Doyle avenue. He jumped out the street car and commanded an automobile to follow the machine with the wrong plate. When he overtook the automobile bearing the bandits, he noticed a quantity of valuables in the trunk. He ordered the driver, Parvis, to stop. Parvis did so. Then Patrolman Arguello ordered the driver to sit in.

Edward H. Groenendyke (on the horse.)

The Pasadena banker, now critically ill, for whom a number of prominent and wealthy men of Pasadena and Los Angeles have submitted to the blood-transfusion operation. At the top is Dr. W. Jarvis Barlow, in charge of the case, who has given his blood as well for the purpose. This picture of Mr. Groenendyke was made when he was grand marshal of the Rose Tournament on January 1, 1912.

BANKS' BID IS REJECTED; TO READVERTISE BONDS.

REJECTION of the bid of the Los Angeles Trust and Savings Bank and the Security Trust and Savings Bank on the \$2,604,000 bond issue for San Fernando Valley irrigation improvement was unanimous by the Board of Supervisors yesterday morning. The action of the board followed a consultation with the Board of Public Service Commissioners, Engineer Mulholland, Special City Counsel Mathews and others.

The principal reason for rejection of the bid was the smallness of the premium offered. It was argued that only \$2000 premium on 6 per cent bonds, backed by the immense security of this proposed issue, and having thirty-two years to run, was out of the question.

Further than that, the board held that the bid of the Los Angeles Trust and Savings Bank was not competitive, as advertised for. In order to place the bonds above all possible future reproach as to validity for collateral holding by savings banks and trust companies, the board instructed Supervisor Woodley and County Counsel Hill to go to Sacramento and confer with the State Banking Commission and get the sanction of that body on the securities. They left last night.

In discussing the action of the board, Supervisor Woodley declared that the bonds should be issued serially and that a larger premium should certainly be paid for them. "I believe that we should get as high as \$75,000 on these bonds under present conditions of the money market," he declared.

"Selling the entire issue of \$2,604,000 at this time was a misunderstanding and should not have been suggested," said Supervisor Hinshaw. "Only \$250,000 worth of material and labor is needed to complete the first proposed unit and the bonds should have been issued in denominations of that sum, or possibly even double that amount, but not for the whole \$2,604,000 at one time. I believe that we will get a much larger premium by dividing the issue as soon as the State Banking Commission has approved it." County Counsel Hill declared that there could be no danger of adverse opinion on the bonds by the State Board, inasmuch as their legality had been established.

"Dillon, Thompson & Clay, the New York bond experts, passed favorably on the bonds and all matters pertaining to their issuance has been regular. We feel sure the State board will O.K. them, after which they will be re-advertised," he stated.

PAY FOR PROSECUTOR.

Holding that the Board of Supervisors had never authorized the employment of Special Prosecutor Noel in the Schmidt trial, Supervisor Norton yesterday refused to vote in favor of the payment of his salary, \$5000. In addition to that, he warned the other members of the board they were liable to suit for allowing this payment to be made. No heed of his warning was taken, the other four members voting unanimously to "O.K." the demand for Mr. Noel's pay.

Lina Reggiani

Soprano with the La Scala Grand Opera Co., Clane's Auditorium

Weeks Jan. 17 and Jan. 24

Lina Reggiani, coloratura soprano, is recently from the principal theater of Buenos Ayres. She is young and beautiful and her exquisite use of the Italian language, together with her fine personality, enables her to play with ease the difficult roles to which she has been assigned.

She is compared only to Melba and many eminent critics have already proclaimed her the Queen of Song. Reggiani, like other renowned artists of La Scala Opera Company, uses and endorses the superb Chickering Piano. Her letter follows:

Southern California Music Co., Los Angeles, Cal.

Gentlemen: After having used the best of present-day pianos, it gives me great pleasure to express to you my appreciation of the superior excellence of the Chickering.

As an instrument for accompanying the voice it possesses that fine sustaining quality of tone so helpful to an artist, yet so rarely found in other pianos.

Wishing you success, I am,

Yours very truly,

Lina Reggiani

ter, his eye fell on a copy of a magazine for builders. He picked it up and idly turned the leaves. Finally his eye rested on an article headed: "Link Belt Company Loses Chairman of Board Through Death."

"John Mayer Dodge," it said, "died at his home in Philadelphia," following with an account of his life. Mr. Kittams read with his heart in his mouth.

"That gets me," he said, "I worked with that man twenty-seven years and he was the best friend I ever had and that is saying a good deal. There was something in that dream after all."

Mr. Kittams is a retired street contractor and has miles of street paving to his credit in Philadelphia. He was associated with Mr. Dodge in business from 1879 to 1904, when he came to California. Mr. Dodge was an inventor who helped develop the chain belt to its present efficiency. His father was a noted scientist and chemist, and his mother an author and editor for many years of an eastern magazine.

CONCRETE HIGHWAY.
West Town Council to Corral Dry Traffic of Long Beach by Diverting Road—Watts Organized Charity Association.

CONCRETE HIGHWAY.
Watts, Jan. 11.—By the construction of three miles of concrete highway, plans for which are now being considered by the Board of Trustees, part of the great stream of traffic to Long Beach will flow through Watts. Forty thousand dollars, which will probably be raised through a system of special assessments, is expected to be expended on the work. It was stated here today that definite action might be taken at the next meeting of the Trustees.

CONCRETE HIGHWAY.
From North Compton avenue, where the present highway ends, the paving is to be twenty feet wide. From Main street to Wilmington avenue the paving is to be laid the present width of Main street. Beyond that point, along Wilmington avenue, where the projected highway will join the highway which passes through Compton, it will be twenty feet wide. Six-inch concrete base, with surfacing three inches in depth, will be used throughout.

CONCRETE HIGHWAY.
The completion of the unfinished strip, it is believed, will divert through Watts much of the traffic which now flows to the beaches by way of Long Beach boulevard and San Pedro boulevard.

CONCRETE HIGHWAY.
The Alameda-street boulevard, work on which was recently started, likewise does not touch Watts, and the determination to construct a highway which will offer an avenue for home traffic, as well as the realization that the present road is not good enough.

CONCRETE HIGHWAY.
The projected road will provide a shorter route to Long Beach and it is expected that this will have a material bearing upon traffic.

Pomona Valley Turned Out to Give Jack Frost a Licking.

Millions in Citrus Fruit Saved by Prompt Precautions.

SMUDGE POTS SET A-FUMING.
The air was crisp and as still as death. It was just such a night as Jack Frost would select for dealing a stinging blow to the citrus industry in Southern California.

SMUDGE POTS SET A-FUMING.
The motorcycle patrolmen, seven in number, who ride the long paved lanes of the valley and read the government thermometers for the Frost Protective Association of the valley, swung into their saddles early in the evening and began making their rounds.

SMUDGE POTS SET A-FUMING.
At 9 o'clock, dozens of growers who believe in taking time by the forelock, lighted their orchard heaters and sent the black clouds of smudge rolling to the tree tops.

SMUDGE POTS SET A-FUMING.
J. E. Adamson, secretary of the Frost Protective Association, admitted before midnight that the outlook was serious and said he did not doubt that smudging would be general before morning. He set the limit at 12 o'clock for lemons and 10 o'clock for oranges.

SMUDGE POTS SET A-FUMING.
"Whenever it goes below 32 degrees," said he, "I'll turn in a general alarm. I expect that the temperature will drop to that point by 5 o'clock in the morning. If the wind raises, the temperature will rise, of course, but as long as the air remains calm, the temperature may be expected to continue dropping. It's lowest point will be registered at 6 o'clock in the morning."

SMUDGE POTS SET A-FUMING.
The first smudging for oranges began in the Kingsley tract near Olive and Washington avenues. That is considered the coldest spot in the local orange belt. The smudging for lemons began west of this city and worked toward San Dimas.

SMUDGE POTS SET A-FUMING.
Pomona is nothing if not prepared for cold. The citrus growers of this district have 400,000 smudge pots set out to the trees. The pots average 50 cents in price. They contain from one to five gallons of fuel oil, worth 5 cents a gallon.

SMUDGE POTS SET A-FUMING.
An investment of nearly half a million dollars worth of orchard-heating apparatus guards a citrus crop estimated at 100,000 cases of oranges and 300 cases of lemons. The combined value of which is figured somewhere near \$1,000,000. Orange pickers started at 10 o'clock and less than ten cars have been gathered.

SMUDGE POTS SET A-FUMING.
The Frost Protective Association is in a position to call 500 men into service at any hour of the night to assist in lighting orchard heaters in an emergency, and if necessary the business and professional men of the city will gladly turn out to assist.

SMUDGE POTS SET A-FUMING.
Frost to a finish. The ground is soaked full of water, a thing which is greatly in favor of the frost crop when the temperature runs low.

SMUDGE POTS SET A-FUMING.
LOWEST IN YEARS.
ONTARIO, Jan. 11.—With the thermometer standing at 25 at 10 o'clock, the lowest at that hour in two years, Ontario citrus ranchers are preparing for a battle royal with Jack Frost during the early hours of the morning. In some outlying districts temperatures of 20 degrees are reported and lemon growers are preparing to smudge early.

SMUDGE POTS SET A-FUMING.
A. T. Hamilton, head of the Growers' Protective Association, says smudging will be general unless a north breeze brings a rise in temperature. C. B. Ford, prominent lemon and orange grower, expresses the belief that smudging will undoubtedly save local crops.

BONDS BEATEN AT GLENDALE.
GLENDALE, Jan. 11.—The bonds were defeated in the election today, the majority voting no on both Verduze wash protection and the fire apparatus. It required two-thirds to win. The fire bonds were almost evenly divided, the count standing 500 yes to 501 no. The wash vote was 241 yes to 255 no.

Pacific Electric Asks Riverside for Consent to Cut Service Because of Inroads of City Buses in Many Cities.

BONDS BEATEN AT GLENDALE.
RIVERIDE, Jan. 11.—In presenting applications of the Pacific Electric for the consent of the city to the abandonment of portions of its tracks in this city, W. V. Hill, tax and contract agent of the company, stated that the railway officials were facing the possibility of abandoning city lines in certain localities in Southern California on account of the serious inroads of the "jitney" buses.

BONDS BEATEN AT GLENDALE.
Pomona and San Bernardino were mentioned as two cities where the competition of the "jitneys" has made the operation of the electric lines no longer profitable. Mr. Hill stated that on many lines in Southern California the company is considering the installation of one-man cars.

BONDS BEATEN AT GLENDALE.
The requests for abandonment here cover only about 1100 feet of the Victoria-avenue line, at the point where it crosses the Victoria bridge. About 1200 feet of trackage on South Brooklyn and Arlington avenues, where new lines have been constructed to serve the same territory.

BONDS BEATEN AT GLENDALE.
On the other hand, the company petitioned for franchise crossings Magnolia avenue in the vicinity of Myers street in order to build a spur track on private property, where a freight depot will be located to accommodate some new industrial enterprises.

WATER REPORT.
The expenditure of \$284,000 in the acquisition of water-bearing lands, the sinking of wells and the erection of pumping plants during the thirty years that the Riverside Water Company has been in existence was announced by President Francis Cutler in his report, presented at the annual meeting of the stockholders today.

BONDS BEATEN AT GLENDALE.
During the same period, according to the report, more than \$250,000 has been expended in defense of the company's water rights.

BANKS TO CONSOLIDATE.
REDLANDS, Jan. 11.—The Citizens' National Bank here will be consolidated with the First National Bank within thirty days, according to an agreement reached at the annual meeting of the stockholders of the two institutions this afternoon. The consolidation has been under consideration for several months. The capital of the First National Bank will be increased to \$250,000.

Denies Having "Snitched" on the Campus "Boozers."

BONDS BEATEN AT GLENDALE.
LONG BEACH, Jan. 11.—Two High School students have been suspended and a dozen others may be debarred from the institution because of the hazing at 2 o'clock this afternoon of Foster Strong, son of Mr. and Mrs. N. Strong of Signal Hill.

BONDS BEATEN AT GLENDALE.
Strong's clothes were removed, it is alleged, and he was thrown into the cold water of a swimming pool on Willow street, near American avenue. Young Strong is in bed at his home and dangerous consequences may follow the hazing.

BONDS BEATEN AT GLENDALE.
Hearing of the hazing, and that her son was accused by other students of telling Principal Burnham about the "boozing party," said to have been held by some students on the campus early in November, Mrs. Strong, who was a member of the Board of Education, said that she had "snitched." She said that Foster had told the school officials nothing regarding that night, and that he did not know that any liquor was brought to the campus, although he slept in the grand stand that night.

TEACHERS BRUSHED ASIDE.
Vice-Principal Reid and Instructor Newcomb endeavored to prevent the youths from taking Strong away from the school grounds this afternoon, but were brushed away by the heavy young men. It was first intended to duck Strong in the frog-pond on the campus. It is stated, but being frustrated in this by Reid and Newcomb, the students, with their prey, secured an automobile and whisked him to Willowville, part of which section is located by FARM ROAD.

CONFESSES SHOOTING.
Mrs. Flora Sage, who fired a bullet into her left breast last night because of unrequited love for a Long Beach auto dealer, will live, according to the declarations of the physicians who are attending her. She confessed today that she fired the shot and hoped that the bullet might hit the male of her daughter, who was with her when she came to visit her this morning.
